Alfambras

Detailed description

Beautiful 5500m2 plot of rustic land located within the desirable area of Alfambras within easy access of the town of Aljezur.
The land is lush and private with a stream (small river) flowing through the property with a wooden bridge across it. The water source is from this and also a water deposit located at the entrance to the land. Power is solar.
There are two wooden constructions, one as an outside kitchen / communal area with shower/ washing area (from the water deposit). There is also a small hut with sleeping area.
It is densely forested with mature pines, cork oaks and olive trees. Garden storage with tools , tents, generator, solar equipment, etc.
A truly stunning peaceful, beautiful place to escape from daily life to be very much at one with nature. This tranquil environment has to be seen to be appreciated and recognize the potential that it has to offer.
